

2008 LEXUS ES 350 Technology

Optional equipment shown.

Omniscience. More than 100 available onboard sensors alert the ES to conditions as varied as steering angle, wheel speed, engine requirements, even the proximity of an adjacent car. Via highly advanced intuitive safety, performance and convenience technologies, the ES is then able to respond accordingly by adjusting Traction Control (TRAC), modulating brakes, optimizing power delivery, alerting the driver to potential parking hazards and much more.

Standard Intuitive Technology

- SmartAccess^{2,3}
- Vehicle Stability Control (VSC)⁵
- Traction Control (TRAC)
- Dual Variable Valve Timing with intelligence (VVT-i)
- Dual-zone automatic climate control
- Auto on/off headlamps
- Direct Tire Pressure Monitor System⁶

Available Intuitive Technology

- Remote keyless entry-linked memory system
- Dynamic Radar Cruise Control⁷
- Rain-sensing windshield wipers
- Dual-swivel Adaptive Front Lighting System (AFS)
- Pre-Collision System (PCS)⁸
- Intuitive Parking Assist
- Bluetooth[®] technology⁹
- Voice-activated DVD Navigation System¹⁰
- Power rear sunshade
